Coroner's Jury Holds Trolley Crew Responsible.

DISPATCHER ALSO INVOLVED

Negligence of Three Men Alleged to Have Caused Disaster at Annapolis, Costing Nine Lives—Conductor Bernasco Only One of Men Under Arrest—Jury Out for Three Hours.

Special to The Washington Herald.
Annapolis, Md., June 22.—Negligence on the part of Edward Bernasco and George Wadsworth, conductor and motorman, respectively, of the extra car that left Annapolis, in accepting a defaced order and in not taking precaution to clear the regular car by five minutes, according to regulations, negligence and ignorance of Train Dispatcher Carson Schumacher, at Annapolis, in issuing the defaced order contrary to rules, and negligence in the movement of trains in general, are the reasons assigned for the fatal wreck on the Washington and Annapolis Electric Railway near this city on June 5 last, by the coroner's jury which has been investigating the matter for the last two weeks.

The jury arrived at this verdict after deliberating more than three hours, and a two hours session previous to that, during which much additional testimony was adduced.

Bernasco Alone Held.

Although the jury places the responsibility upon Bernasco and Wadsworth and Schumacher, the latter because of negligence in issuing the defaced order, neither of them is held for criminal negligence, and the only arrest thus far is that of Bernasco, against whom the State instituted proceedings about ten days ago, when Wadsworth, the motorman, disappeared from his home in Washington.

Bernasco, it is expected, will be formally arraigned before a police justice, bail fixed, and held for the October grand jury of Anne Arundel County.

Testimony Was Conflicting.

Although there was much conflict of testimony about certain phases of the investigation, the whole matter narrowed down to the order given by the extra car. It left Annapolis at 7:30 o'clock, as admitted by Bernasco, and had the crew complied with instructions, there was ample time to reach Camp Parole siding, a run of three miles, and then clear the regular car by five minutes, as required under regulations, as the collision, from the best information gathered, occurred about 7:38 or 7:40.

The jury was anxious to hear the testimony of Motorman Wadsworth, but efforts to locate him failed.

At today's hearing particular interest centered in the testimony of Bernasco, who, with Wadsworth, the majority of people have been inclined to blame for the wreck.

Tilt Between Jurymen.

During the course of the hearing there was a slight tilt of words between Foreman Harry T. Levey and Mr. Charles Werne, of the jury, as to the method of questioning the witnesses, and no little interest was created when the question of veracity between the witnesses several times presented itself. This arose principally through statements made by Bernasco to the effect that he had been given verbal instructions by Train Dispatcher Schott, and that because of the direct violation of regulations, and once the jury brought both Bernasco and Schumacher face to face before them.

In the face of the statement by Bernasco, Schumacher entered an emphatic denial. Much of the testimony was conflicting, and among other things, tended to show that members of the train crew were inexperienced in the handling of high speed cars on single track railways, and that their previous experience was principally in the operation of trolley cars in the city on double track railways.

PICK ROUTE FOR BOULEVARD

Maryland State Commission Holds Session at Hyattsville.

Special to The Washington Herald.
Hyattsville, Md., June 22.—Gov. Austin L. Crothers, Dr. Ira D. Remsen, and Capt. R. W. Silvester, members of the State Highway Commission, and Chief Engineer W. W. Crosby, visited Hyattsville today, for the purpose of hearing citizens relative to the completion of the Washington-Baltimore boulevard between this place and the District of Columbia line.

The meeting was held in the directors' room of the First National Bank, Dr. Remsen, chairman of the commission, presiding. Mr. Owens welcomed the visitors on the part of the citizens of Hyattsville. Dr. Remsen declared that the members of the commission had gone over the proposed route for the boulevard, paralleling the City and Suburban Railroad, and had concluded that the expense involved would render this route impracticable until the legislature could be persuaded to appropriate sufficient funds. He stated that it was particularly desirable that the railway crossing on the line of the present turnpike in Hyattsville be avoided. Although the meeting was held primarily to hear persons interested in the route paralleling the electric railway, not a single protest was heard relative to constructing the road over the old turnpike through Hyattsville and Bladensburg.

Ex-Mayor Dr. Charles A. Wells, Clerk of the Circuit Court B. D. Stephen, and Mr. T. Howard Duckett all urged the construction of the road over the turnpike. Mr. Stephen suggested that sufficient money might be secured with which to place a bridge over the tracks at the Johnson avenue crossing. At the conclusion of the speechmaking the commission conferred, and in ten minutes announced that a decision had been reached to construct the road over the present turnpike as soon as funds were available. Applause greeted this announcement.

The commission went to Laurel this afternoon to inspect a portion of road near the midway city. Gov. Crothers returned to Annapolis to-night, and tomorrow will go to La Plata, Charles County, and Marlboro, Prince George County. With the exception of Harford and Baltimore, the Good Roads Commission has visited every county in the State.

Engineer Crosby stated today that, with the exception of perhaps a few small sections of road, it was not expected to start general operations until next year. Prince George County's appropriation of the fund will be something over \$30,000.

City Bonds to Amount of \$345,000 Subscribed For.

Officials Expect Entire Issue Will Be Disposed Of Before July 1, When Old Bonds Mature—Two Men Fined for Violating Sunday Closing Law. New Pastor Expected Soon.

WASHINGTON HERALD BUREAU.
(Bel Telephone 61.)
329 King Street.

Alexandria, Va., June 22.—Subscriptions to the amount of \$345,000 for the new issue of bonds bearing interest at the rate of 4 per cent have been received.

The total amount of the issue is \$745,000. The bonds taken have been redeemed with old ones which bore interest at the rate of 5 per cent. The old bonds will mature July 1, and the city officials believe that all will be disposed of.

Of the amounts taken, residents of this city have taken \$200,500. Amounts taken by other places are as follows: Washington, D. C., \$34,500; Pennsylvania, \$11,000; Virginia, exclusive of Alexandria, \$15,500; New York, \$1,000; West Virginia, \$2,100. An exchange for the \$2,100 was received today by Auditor E. F. Price, and came from a resident of Baltimore, who formerly lived at Harpers Ferry, W. Va. The original owner was among the few persons who offered to, and did, fund his 1873 bonds in 1878 for a bond which represented 50 per cent of its face and 8 per cent interest. This plan of scaling failed, and in 1879 all of the bonds issued in 1873 were called in and the creditors placed on the same footing.

W. D. Hudson, an uptown druggist, and Stuart Simpson, who conducts a grocery store in the southwestern section of the city, were charged in the Police Court this morning with violating the Sunday closing law by keeping open their places of business yesterday.

Policeman Arrington appeared as the complainant against Hudson. He told the court that he had notified Mr. Hudson concerning the Sunday closing, and the latter thereupon entered a plea of guilty and was fined \$2 under the city ordinance. It being the minimum fine. A similar fine was imposed on Simpson after he pleaded guilty. Policeman Talbot testified that a colored urchin purchased cakes in Simpson's place.

City Auditor Price has issued 500 dog licenses. Those who own or harbor unlicensed dogs on and after July 1 will be subject to arrest, and the law imposes a fine of \$5 to \$10 for the offense. Last year 74 licenses were issued.

It is probable that the case will be postponed, owing to the fact that the courtroom is being repaired.

WEDDING PRESENTS GUARDED.

Morgan's Niece Asks Police Aid to Prevent Robbery.

New York, June 22.—That the many valuable wedding presents of Miss Ursula Juliet Morgan, daughter of Mrs. John B. Morgan and a piece of J. P. Morgan, who is to be married at Tuxedo to-morrow, may be carefully guarded until after the ceremony, Gilmore Bush, chief of police of Tuxedo, to-day asked Inspector McCafferty, at headquarters, to send a detective to the town.

Lieut. Dooley was detailed for the work. Chief Bush came to this city and visited headquarters early in the day. He said that Miss Morgan's presents are very valuable, although no exact figure, of course, could be put upon them. Capt. McCafferty, however, decided to take no chances on New York thieves being at Tuxedo. Half a dozen private detectives, it was said, will also be present immediately before the wedding, and will remain on duty until all danger of robbery has passed. It is believed that Miss Morgan's presents will reach in value many thousands of dollars. There is no little speculation as to what was J. P. Morgan's gift to his niece.

It was the intention of Sirino, after he became a free man, to remove to Clarkburg, where he has property. The officer warned him to be careful, and he promised that he would live with and care for his wife and child.

ICE INDICTMENTS PUBLIC.

Individuals Ignored in Findings of New York Grand Jury.

New York, June 22.—The four indictments filed by the special grand jury on Friday as a result of its investigation of the ice trust were all against the American Ice Company. There were no indictments against individuals. It is said that the representative of the Attorney General tried hard to get indictments against individuals, but the grand jury couldn't see it that way.

The indictments were made public to-day. The first indictment, which has three counts and is a very long document, goes into the history of the American Ice Company. It names instances where contracts were made in restraint of trade. The following individuals are named as persons who sold out for a period of years or made contracts not to interfere with the business of the American Ice Company: D. E. W. Fowler, Willis A. White, McElroy Brothers, the Berkshires Ice Company, Lewis F. Corwin & Sons, Martha E. Goodwin, who ran the Independent Ice Company, and other concerns of which the grand jury says it has no knowledge.

These counts or individuals are all named in the first indictment as having been bought out by the American Ice Company.

The second indictment says that the American Ice Company bought out the Youngs Ice Company which agreed never to do business again. In the third indictment the American Ice Company is accused of having entered into a contract with George N. Best, an ice dealer on the Hudson, to buy all the ice he could produce. The fourth indictment says that the American Ice Company made a deal with Patrick F. Doherty, who did business at the foot of West Forty-eighth street, to take all the ice he could sell for a period of five years.

GEORGIA DEMOCRATS TO MEET.

State Convention to Nominate Governor and Elect Delegates.

Atlanta, Ga., June 22.—The Georgia Democrats will meet in State convention here to-morrow to nominate a candidate for governor and name delegates to the national convention at Denver.

Joseph M. Brown will undoubtedly be named as the candidate for governor to succeed Hon. Hoke Smith, in accordance with the result of the popular primary held on June 4.

It is stated to-night that the four delegates-at-large to the Denver convention will be Albert H. Cox, of Atlanta; W. S. West, of Valdosta; T. W. Loyler, of Augusta, and P. W. Meldrin, of Savannah.

The indications are that the Georgia delegates to Denver will be unopposed, though some ardent friends of Bryan favored instructions. The men who will dominate the convention, however, are understood to be opposed to instructions.

Clark Howell will be re-elected national committeeman from Georgia.

Winans' Kent and Billy Button. Mr. McGrann drove the only single horse exhibited, Young Mountaineer.

Mr. McGrann said: "We showed his majesty, by special desire, an American pony team, a lady's pair, a phaeton pair, and two pairs of roadsters."

Major General Putnam, U. S. A.

THE hero of Bunker Hill—who first marshaled the Riflemen of the Revolution—and left his plow standing in the furrow to hoist the banner of defiance against legislative oppression! Who has not heard of him?

When others faltered and grew pale, facing fearful odds, this intrepid old Puritan Commander remained strong-hearted, steadfast and true. His tavern, known to fame as the "GENERAL WOLFE," was (in its day) a celebrated meeting place for Revolutionary veterans.

In its cozy bar parlor they delighted to periodically gather and drink with him the foaming juices of the malt; toasting each other in memory of the splendid and heroic days when they gave blood and treasure to found this nation and write the immortal principle of "PERSONAL LIBERTY" in our laws forevermore.

Hale, hearty and generous minded to the last, Israel Putnam died at eighty-three, and what living Prohibitionist dare stand up and say, "I am a purer patriot than he?"

WATERWAY MENACE TO TREES

Commercial Interests Threaten Life of Adirondack Forests.

Paul Smith Company Cited to Answer Complaint of Forest, Fish, and Game Department.

New York, June 22.—Even the provisions of the amended State constitution and the activities of the forest, fish and game department of the State government have failed to secure the State forest preserve in the Adirondack Mountains from the encroachments of commercial interests, according to the complaint in a suit now brought in the Supreme Court of this State, and the Association for the Protection of the Adirondacks has stirred interest in the effort to secure the aid of the courts to stop the newest menace.

According to the complaint, the latest attempt on the State lands is more than a menace—it has already worked great injury, and no less than 7,500 trees have already been killed or are now being killed on lands flooded by newly constructed dams.

The defendants are the Paul Smith Electric Light, Power and Railroad Company, operating along the Saranac River, ten miles of whose banks the complainants say will be forest cemeteries if the work of destruction wrought by the company's dams be not stopped. The forest, fish, and game commissioner has secured a temporary injunction restraining the company from flooding State lands further, and the hearing on making the injunction permanent is to be next Saturday at Gloversville.

ROCKEFELLERS BUY LAND.

John D.'s Relatives Will Own Enormous Country Estates.

Y.

It is reported that they intend to open up a residential park, with their own residences as a center. This week the two young men, who will own, between them, land amounting to about 400 acres, have bought from William Rockefeller 148 acres near their own places. It is also reported that dealings are going on whereby several hundred acres more will be added from the adjacent farms.

Third Letter Demands \$10,000 for Release of Newman.

Firm for Which Jewelry Salesman Worked Gets Another Warning.

New York, June 22.—The third Black Hand letter threatening death for Meyer Newman, a jewelry salesman living at 355 Fulton avenue, the Bronx, who mysteriously disappeared on last Tuesday with \$2,000 worth of diamonds and perhaps \$100 in cash, was received to-day by Stern Brothers & Co. The letter, according to the postmark, had been mailed in New York Sunday night. It read as follows:

"Stern Bros. last warning. To whom it may concern: If the money is not coming by the 25th of June, \$10,000, Meyer Newman will be killed. Hope Mr. Karpalman or some other will pay the money soon. BLACK HAND SOCIETY."

Lately the writer is beginning to misspell words and "bull" up his copy generally.

The police seem to think that Meyer Newman's kidnappers have pawned the jewelry they found on him and are living on the proceeds, which they estimate at \$1,000. A thorough search of the pawnshops has been made, but none of the jewelry has turned up.

Newman's accounts are absolutely straight.

ANTI-AMERICAN SENTIMENT.

Expressed in Mexico in Spite of Our Invested Capital.

From the New York Post.
Mexico now has a "wave" of anti-American sentiment. The merciful truth about waves of anti-foreign feeling, as of crime, hydrophobia, of soul afflictions and of Merry Widow hats, is that they are waves, and, passing away, leave the soul in a state of beatific placidity. Mexican hostility to this country is hard to imagine, after the notable way in which the United States and Mexico have been co-operating for the last two years for peace and progress in Central America.
